

Creative Ventures Gallery

Creative Ventures Gallery (CVG) represents a group of professional artists who have an interest in sharing our love of art with the public.

CVG's teachers hold four-year and advanced degrees in their chosen field of art including education. The Gallery offers afterschool classes in drawing, painting, and sculpture. Summer camps and vacation camps provide additional opportunities for hands-on art experiences.

Classes and workshops for adults include drawing, realistic and abstract painting in oils, acrylics, watercolor, and pastel. Instruction in mosaics and zentangle are popular.

Watch for our First Friday presentations and check out the website for additional information.
