Dear Milford Middle School Families,

Milford Middle School is excited to host our annual **MMS Public Safety Day** on **Thursday, May 21st**, on our school grounds.

This special day provides students with a valuable opportunity to learn about public safety, emergency response, wellness, and community partnerships through interactive demonstrations and activities. We are incredibly grateful to the many local agencies and organizations that will be joining together to make this experience meaningful and engaging for our students.

Participating agencies and organizations include:

- Fire Department
- Police Department
- Ambulance and Emergency Medical Services
- Fish and Game
- Cold Springs Healing Paws
- Additional community partners and first responders

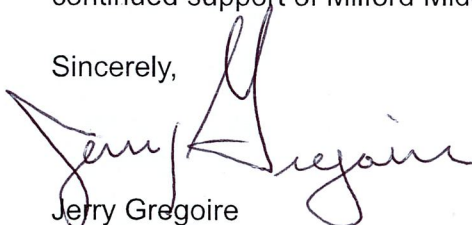

Throughout the day, students will have opportunities to explore emergency vehicles and equipment, meet service professionals, learn about safety practices, and gain a greater appreciation for the individuals and organizations that serve our community every day.

Since much of the event will take place outdoors, please remind your child to come prepared for the weather by bringing:

- A water bottle
- Sunscreen
- A hat

We are looking forward to a fun, educational, and memorable day for all students. Thank you for your continued support of Milford Middle School and our community partnerships.

Sincerely,

Jerry Gregoire  
Principal  
Milford Middle School
